

# Perfect Pair

## Rules!

1. Choose your shoe.

2. Roll the dice (you can use actual dice or an app on your phone), and the highest number goes first.

3. Take a question card.

4. If you answer the question correctly, go up a step and earn one Healthy Relationship Point(HRP).

5. If you get it wrong you have to go down one floor or you can use a HRP to stay. If you are still on the starting floor you can't go up or earn a point.

6. There is a bonus level which is a heart symbol, which allows you to roll the dice on the next round. If you get the same number as the number on the heart symbol, you can go up that many steps, but you don't earn any points when you go up several floors.

7. There is also a bomb level which is a bomb symbol. It will send you back as many floors as the number next to it states if you can't answer the question in the next round. You are not allowed to use HRPs to stay on this level. If you answer the question right, you can step up one level and get one HRP.

8. Whoever reaches the top of the building first wins the game and a healthy relationship!
